

is the Right Solution for Your Business.

6. Ring up more sales quickly and accurately. Accurately ring up cash, check and credit, debit and gift card sales² and “charge to store account” transactions. Add a barcode scanner for even faster service and improved accuracy. Or, display photos of inventory items to simplify handling of similar items and reduce losses due to price tag switching.

7. Built-in software & hardware compatibility. QuickBooks® POS offers a complete bundle that includes the software, cash drawer, bar code scanner, card reader, and receipt printer.³

8. Easy to set up, learn and use. Includes built-in tutorials, practice files and 30 days support at no extra charge⁴ to help you get started easily and quickly.

9. Built by Intuit, the makers of QuickBooks. QuickBooks Point of Sale is backed by more than 17 years of experience, detailed research, and commitment to quality, and an unwavering dedication to our customers.

10. A professional system at an affordable price. QuickBooks Point of Sale gives you all the power and functionality of a large retailer at a fraction of the cost — starting at just \$1,499.95 for the complete Hardware and Software solution.

QuickBooks® Point of Sale is available in 3 levels to better meet your specific needs:

QuickBooks Point of Sale Retail Management Software

A Complete Business Management Solution for Your Retail Store.

Monitor and PC not included.

10 Reasons Why QuickBooks® Point of Sale

- 1. Works with QuickBooks financial software.** Significantly reduce your workload by transferring sales activities, and even employee hours, from QuickBooks Point of Sale (POS) directly into your QuickBooks software with just one click.¹ Generate financial reports with confidence knowing that your inventory, sales and costs are up-to-date, and keep vendor and customer information consistent.
- 2. Tighten control of inventory.** QuickBooks POS software makes inventory tracking effortless and automatic. As you ring up sales, inventory data is recorded and stored. You always have accurate, real-time information about what's selling, what's not, what's on hand and what needs to be reordered. Multi-store operations can even share data automatically over the internet.
- 3. Improve product pricing to increase profits.** You can use QuickBooks POS to get the most from your pricing strategies. Easily customize product pricing and accurately calculate markups, markdowns and discounts by item.
- 4. Build stronger customer relationships.** QuickBooks POS will tell you who your best customers are, what they buy and how to keep in touch with them. You can generate mailing lists and labels. And, institute and manage automatic customer rewards and discounts to stimulate repeat business!
- 5. Generate insightful reports for better business decisions.** Make smart decisions, including setting optimal business hours and staffing levels, track best and worst sellers, and gain critical intelligence from store close reports.

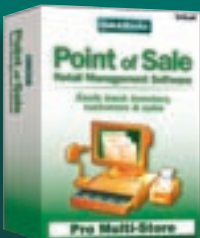

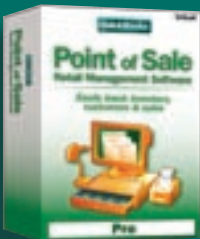

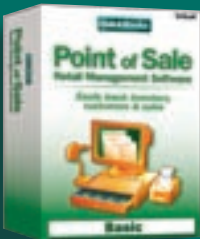

More than 70,000 Independent Retailers Use QuickBooks Point of Sale to Run Their Retail Stores.

¹ QuickBooks Financial Software sold separately. Works with any QuickBooks Pro or Premier Edition (2004-2008) and QuickBooks Enterprise Solutions (versions 4.0-8.0).

² Credit card and debit card processing requires an account with QuickBooks POS Merchant Service, an optional fee-based service. Additional terms and conditions apply. Requires a merchant account through QuickBooks POS Merchant Service, provided by Innovative Merchant Solutions, LLC. Application approval and fees apply. Details available at www.quickbooks.com/posmerchant. Credit card reader and printer required for credit and debit transactions. PIN pad required for debit transactions. Internet connection or modem required.

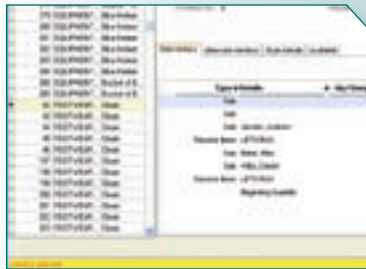

³ Hardware and software sold separately, or as a bundled solution. Only Intuit-approved hardware is guaranteed to work with QuickBooks Point of Sale. QuickBooks Point of Sale Solution for Retailers comes with a two (2) year Hardware Component Manufacturers Limited Warranty of Interoperability and a Sixty (60) Day Money Back Satisfaction Limited Warranty. See www.quickbooks.com/pointofsale for full Warranty.

⁴ 30 consecutive days of QuickBooks Point of Sale 7.0 e-mail support included first-time registration. Questions must be submitted online www.quickbooks.com/contactme to receive free support via e-mail or phone (at Intuit's discretion). A support fee will be charged to handle requests that originate from a call rather than a web request. Internet access required. Offer valid 90 days from software purchase; U.S. only. See terms and conditions at www.quickbookspos.com/supportterms.

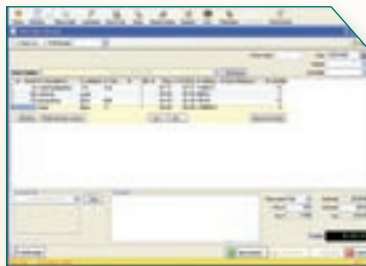

60-Day Money-Back Guarantee

Try QuickBooks® Point of Sale without obligation. To make sure you're satisfied, we offer a 60-day money-back guarantee on your purchase of QuickBooks Point of Sale products. Simply return your product(s) to us within 60 days along with a dated receipt and we'll refund your full purchase price.

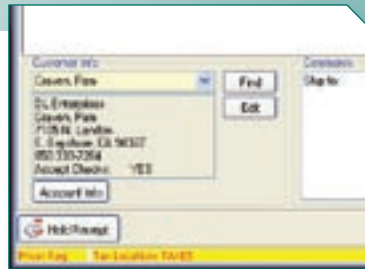

Track Inventory

- Always know what inventory you have on-hand, without conducting a physical count.
- Inventory totals automatically adjust as you sell items or purchase stock.
- Check if items are in stock across multiple locations (only available in Pro Multi-Store).
- Assign unique serial numbers to items, and assign multiple vendors to an item (only available in Pro).
- Track layaways, back orders and items sold together, such as kits and gift baskets (only available in Pro).

Ring Up Sales

- Use a bar code scanner to scan items when ringing up sales or entering new inventory.
- Use your existing computer and keyboard to ring up cash, check, credit card and other transactions.
- Like a cash register, your computer opens the cash drawer with each sale and prints a receipt.

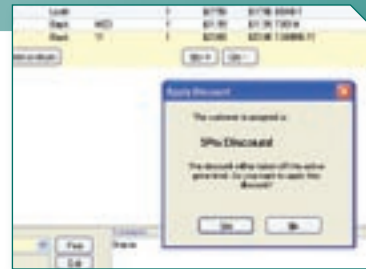

Store Customer Information

- QuickBooks® Point of Sale automatically tracks customer information and purchase history when you ring up sales!
- Track your best customers, assign discounts by customer and compile mailing lists based on customer purchase history.

Display Inventory Photos

- Easily attach your digital photos of inventory items, up to 2 images per item.
- Display in sales receipts at point of sale, item records, P.O.'s or receiving vouchers.
- Export images to your web store or product listing service for online marketing and sales.
- At the register, minimize errors and reduce losses due to price tag switching.
- NEW only available in Pro and Pro Multi-Store.

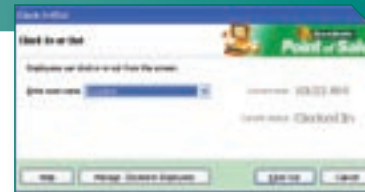

Manage Customer Rewards

- Track and reward customer spending to build customer loyalty and repeat business, while encouraging more frequent and higher purchase amounts.
- Set the discount percentage and the purchase level required to earn the discount — discount shows on register receipt when that purchase level is reached.
- Even issue scannable membership cards branded for your business.
- Scanning reveals customer's name, personalizing customer contact, and ensures accurate tracking of that individual's spending.
- Rewards programs yield valuable customer information to help you market more effectively.
- NEW only available in Pro and Pro Multi-Store.

Schedule Data Exchange Between Stores

- FREE with Pro Multi-Store.
- Multi-store operations can share data over the internet via powerful Intuit-based servers.
- Scheduled store exchanges occur automatically.
- Data is instantly available at your headquarters.
- Eliminates time-intensive emailing and forwarding of files.

Simplify Time Clock To Payroll

- Track employee time clock hours, then transfer from QuickBooks® Point of Sale directly into your QuickBooks software.
- NEW only available in Pro and Pro Multi-Store.

Streamline Shipping

- Save time and effort by creating shipping labels for popular shipping services without having to re-enter customer address information.
- Put tracking numbers and shipping charges directly onto sales receipts and sales orders.
- Run shipping reports and prepare shipping cost estimates/quotes.
- NEW only available in Pro and Pro Multi-Store.

QuickBooks

Point of Sale

What Retailers Are Saying

Track & Manage Inventory Easily & Accurately

"Before using this system, we didn't keep track of ANY of our sales. Now, we can't live without the weekly reports on what items sold! This is a great product I would highly recommend!"

— Paul Bruner, Electronic Discount Sales, Texas

Ring Up Sales Quickly & Easily

"The enhanced 'Find' feature makes locating items for receipts and purchasing so much easier and faster. The time saved doing look ups is wonderful. Thank you for the time saving enhancement."

— Karen Burgess, All Fired Up!, Florida

"Since I started using QuickBooks POS I spend fewer hours managing my business. I would never go back to using the old 'cash register.' Thank you for a great product!"

— Bruce Chapman, Granville Computer Services, New York

These testimonials represent the individual experiences of these customers. Intuit does not guarantee that results will apply to all customers.
